

PRODUCT SPEZIFICATION

PRODUCT NAME:

FORMI[®]NDF

ADDCON

DESCRIPTION:

FORMI[®] NDF is a solid, non-corrosive premixture with preservatives formic acid (E 236) and sodium formate (E 237) for the use in animal nutrition.

ACTIVE INGREDIENTS:

Formic acid (E 236)	385,000 mg/kg ¹⁾ (HPLC)
Sodium formate (E 237)	570,000 mg/kg ¹⁾ (titrimetric)

INGREDIENTS:

Sodium 20%

FEED LEGISLATION

PREMIXTURE with technological additives: (preservatives: formic acid, sodium formate). According to Directive (EC) 1831/2003, it can be used for feed for all animal species and categories without restrictions. No withdrawal time applies.

USE:

Due to strong antibacterial activity, **FORMI[®]NDF** is preferably used in the preservation of compound feed and on-farm produced feed mixes

By lowering pH of the feed, **FORMI NDF** supports digestive processes, especially in rearing animals.

DOSAGE:

compound feed/feed mixes 3 - 10 kg/t

STORAGE:

Cool (frost-free), dry and dark.

SHELF-LIFE:

If stored properly, content of active ingredients is guaranteed for at least 18 months from production date. Storage of **FORMI NDF** at high temperatures and high humidity, respectively, may result in lump formation if stored under those conditions for > 6 months.

PACKAGING:

polyethylene bag (25 kg net)
